SUPREME COURT .- The Court closed its Winter ssion to-day. We learn that the docket has been leared of all cases-many of which had lain over from term to term-and at the meeting of the Court in the second Monday in June, there will be an entire new docket. The following are the closing inions:—Raleigh Times.

By RUFFIN, C. J.-In Smith v. Downey, in equity, from Caswell, upon exceptions to the Master's re-Port. Also, in Thompson v. McDonald, in equity, pon the petition of plaintiff, declaring that the petioner must take the debt for \$1,500.

By NASH, J.-In Munroe v. Smith, in equity, from umberland, dismissing the bill with costs. By Pearson, J.-In Durham v. Ross, in equity, om Rutherford, directing a decree establishing the arol agreement of the parties.

WHAT NEXT !- The Montreal Gazette translates om L'Avenir, a Canadian paper, the following exmordinary story, with a remark that the editors we since heard the thing is dead :

Human Monster .- We learn that a female in the wish of St. Timothy, has just given birth to an exraminary child, which, in grotesque horror, exeds all that humanity has yet produced in the way mant phenomena. The new born child has noing human about it but the head and arms; the est is literally a tortoise, the back and belly covered with a hard shell, and the feet perfectly resembling paws of the amphibious animal.

Like the tortoise, it can protude and retract the feet within the shell, and articulates sounds which have not the slighest resemblance to the cry of a new born child. We are even told that it can retract its head within the shell, until the top of it is level with the shoulders. The parents, obeying the first sentiments of horror, and dreading the disagreeble reputation which this occurrence might atach to their names, desired to destroy this prodigy amediately after its birth, but having consulted deir priest, they resigned themselves, and the child wed baptism, and is likely to live.

articles of agricultural production.

> Love and Philosophy. BY ALFRED EVELYN. You see that lady sitting there ? Ten years ago I thought her fair, And raved and rhymed about her; I carved her name on every tree, And, such was my absurdity-Though I should die without her, I thought no eyes could be so bright,

I thought no teeth could be so white-No angel could surpass her-So sweet was each melodious tone, Her shape so perfect, and so shone, Her ringlets, with Macassar. My heart and soul were in a blaze,

I taxed my brains to sing her praise, In scores of plantive couplets, And taxed a pocket scarce of cash, Before her door to cut a dash, In ruffled shirts and doublets. The withered flowers she cast aside, The strings with which her shoes she tied,

With tender care I hoarded; And thought that I was well repaid, For many a cold night's serenade, If she a smile accorded.

How wretched did I feel at last, When, like a worn-out glove, she cast Me and my hopes aside; Three weeks from that she changed her name, And-oh! the misery-became Old Brown, the Grocer's bride.

A man of twice her age and mine, At whose expense our wit would shine For oft we quizzed the spooneys; I had my labor for my pain, Wealth was an overmatch for brains, Old Brown had lands and money.

I marvel at my madness now ! Time has been busy with his plough, Behold that cheek-how wrinkled ! Her eyes are stony as a flint-Her step has little music in't,

Her hair with grey is sprinkled. I think she must weigh twenty stone, Her sylph-like airiness is gone, And like a duck she waddles: I laugh to think upon the past, Yet Love such spell has ever cast,

On human hearts and noddles. A word to those who lose a prize And mourn the loss-just turn your eyes Upon the Lady's mother; The object of your hopes and fears, Will be in less than twenty years,

Exactly, such another. Philosophy has no such cure, The sight will teach you to endure-And like a pail of water, 'Twill cool your fiery passion down: Discarded, you will smile not frown, Nor die to lose the daughter.

Harrison shot him a second time. After receiving the last wound, Collins threw the tongs at Harrison, "Well, get in, the three other passengers," said which struck him just below the eye, and went down in his mouth. He then took a sledge hammer, and, which we trust, the Union, and we hope and believe zed down the Sevres road to watch the arrival of the from reputation, who, though wild, was much estimated the arrival of the arrival of the research three other research three others are three other research three others are three others. teemed.

Napoleon's Tomb.

The author of "Etchings of a Whaling Voyage," relates the following: An Englishman some years since visited the tomb at St. Helena, and indited in the register a verse on

the ex-emperor to this effect: Boney was a great man, A soldier brave and true ; But Wellington did lick him at The field of Waterloo.

This was not in very good taste, not exactly such an allusion as an Englishman should be guilty of at the tomb of a conquered foe. Nevertheless, it contained an indisputable truth. A Yankee visited the | the Provincial and Irish markets are in general very dull, place soon after. Determined to punish the braggart for so illiberal and unmanly an attack on the dead, he wrote immediately under it:

> But greater still, and braver far, And tougher than shoe-leather, Was Washington, a man what could Have licked 'em all together.

The next visiter was a Frenchman, who, like all his country, was deeply attached to the memory of Napoleon. When he had read the first lines he exclaimed with looks of horror and disgust, "Mon Dieu! Quel sacrilege! Sans dunte, les Anglais sonte grand cochons!" The Yankee skipper's addition next attracted his eye. He started as he read, grasping, grinned, read the lines again, then gashing his hair, danced about the room in a paroxism of indignation, screaming "Diable! Monsieur Bull is one very small pieces!" He called for his horse, rode | d per lb. decline only. post haste to town, and sought the Yankee every- The quotations are-fair Orleans 67d; fair Mobile 67d where. Alas! the bird had flown. little girl in that town, only four and a half years bile and Alabama at 5 a 71; and 320 Sea Island at 9 a 16d old addressed to her mother, upon her return from per lb. a short absence; and that the baby was found under the sink spout, with a cut upon its wrist, from which it had bled almost to death.

A CURIOUS FACT .- The whole population of the United States could be compressed into the space of one square mile, and each individual be allowed sufwould suffice for this. There are 1,700 yards in a mile, which, being multiplied, gives 63,360 inches: and this product divided by 15, the number of inches occupied by each individual, would place 4.224 of them in a row to extend the length of a mile: and the same number of rows to complete a square mile would consequently number 17,842,576.

"DISTRESSING" ENGLISH .- We copy the following Editorial, verbatim et litteratim, from the last number of the Edenton Sentinel. We beg our readers to believe that this paper is written for, set up, corrected, worked off, and circulated in the full blaze of the nineteenth century:

"A DISTRESSING CASELTY. On Fryday, the 1st inst., was Dround three fishmon opposit Bulls Bay in Albermarle Sound, whilst ingaged in fishing nets, there names is Joabb Normon, Daniel Overton, & Benjamin Overton, who has left Wives & Children to mourn there loss."

The Sentinel, we believe is the Whig organ for Chewan and parts adjacent. Are there any Common Schools in Chowan? It would be money thrown away to send such a 'scholor' to an Academy. Raleigh Standard.

We came across a whig yesterday, who was drifting about the political ocean without chart or compass. Said he-" can you tell me about where I am, politically? Am I a Clay, Seward, Webster, or Tayor whig? Do I go for the "compromise," or with the "vipers?" for I'll be hanged if I can tell? I have enquired of all our leaders, but they don't seem to know the points of compass!" We answered his hail, and told him he was off point-no-point, heading Davis for the breakers, his tiller unshipped, and a "hole in his mainsail." "Well," said he, with a melancholly smile—"I s—r I believe you!"

For Sheriff.

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING MARCH 28, 1850.

Bacon-North Carolina Bacon continues very plenty, an dull at quotations. Sales are only made in small lots. Corn—Market well supplied with Corn. Last sales, from vessel, at 51 a 52 cents per bushel. Meal—Last sales 60 a

Coffee-Our quotations are for store rates, and are mere-

FLOUR-The stock of Fayetteville Flour has become somewhat light, and holders are asking an advance on our figures. HAY-Several small lots of Hay have arrived, and sold at

LARD-No improvement in price of Lard. Market well LUMBER.-We hear of 2 rafts flooring boards that changed hands yesterday, about 130,000 feet, at \$11 per M., cash.

LIME-Store rates \$1 per cask. Molasses and Sugar-Arrived from Cardenas 150 hhds. 10 tierces, and 20 barrels; selling from wharf, in lots to suit,

at 6 cents per lb., in lots to suit. NAVAL STORES.-The receipts of raw Turpentine have been considerable since our last report. Some 9688 barrels have changed hands at \$1 85 for soft, and \$1 10 for hard; and 180 bbls. at \$1 90 for soft, and a small lot of 19 bbls. new virgin dip, at \$3 per bbl. of 180 lbs. The sales foot up 9887 bbls., perhaps more. The market opened and closed by the 15th of August next. to-day at \$1 85 and \$1 10. Rosin .- Sales of about 1500 bbls. No. 3, at 60, 621 a 65c. per bbl. Spirits Turpentine -Several lots have been sold during the week at 2412c per gall. bbls. \$1 75 not returnable. Tar .- Sales of about 2736 bbls.

\$1 10 a \$1 12½ per bbl., closing at \$1 10. Peas-Sell in lots as they arrive, at quotations.

Shingles .- No sales. TIMBER.-Sales of about 10 or 15 rafts to Millers, within the range of our quotations. See table. STAVES AND HEADING .- Not much been done in this market, one small sale of inferior R. O. hhd. staves at \$12 per m.

And one do. of White Oak barrels staves at \$12 per do. cash.

Nothing done in heading. FREIGHTS .- Coastwise have receded 5 cents per barrel, and in proportion for other articles. See table. Exchange.-The banks sell Exchange on Northern

Cities at 1 per cent. prem. FAYETTEVILLE, March 26 .- Cotton is coming in quite freely for the season, and selling at 112 to 12. Flour has advanced, and sells at \$4 50 to \$4 85. Corn dull at 60 to 65 .- Ob.

COLLECTOR'S OFFICE DROPOSALS will be received until 12 o'clock M., on the

PROPOSALS will be received until 12 o'clock M., on the 15th April next, at this office, for building two Light Houses, to range with the Channel around the Horse Shoe, at Price's Creek, on Cape Fear River, of the following materials, dimensions, and descriptions:

1st. The Dwelling to be of hard bricks or stone, 36 feet by 20, one story, 8 feet in clear, divided into two rooms, with an entry between eight feet wide; walls to be 20 inches thick, and laid in strong lime mortar; a cellar to be under the entire house, six feet in the clear, walls of the same, to be 20 inches thick, built of stone and well laid in strong lime mortar.

Roof to be rectangular, covered with good scasoned boards and shingles of the best quality—two centre rafters to be of timber 7 inches by 7 square for the posts of the tower to belt on, the remainder 3 by 5; a chimney at each end of the house; fire places in each parlor; three windows in each parlor, 16 lights 10 by 8 in each, one in each gable end, 12 lights each 8 by 10; the attic to be divided into 2 chambers, with a space between 8 feet wide; chambers to be finished, lathed and plastered; parlors to be lathed and plastered; stairs to lead from the entry into the chambers; closet in each parlor back of the stairs; all the floors to be laid double and well pailed; to be 4 windows in the cellar, six lights 8 by 10 each, and a door to lead outside with a lock.

Attached to the house, to be a kitchen, 14 by 12 in the

Attached to the house, to be a kitchen, 14 by 12 in the clear, walls same thickness as the house, to finish 7 feet in the clear, floor to be on a level with the floor of the house; to be two doors, one to lead outside and one to open into one of the rooms in the house; two windows 12 lights each, 8 by 10; lathed and plastered; floor laid double; a chimney, with a suitable fire place, crane, tramel, and hooks; on one side of the chimney to be an oven, with an iron door—on the other side a sink, with a trunk to lead through the wall to carry off the water.

Closets in the rooms to be latited and plastered, with shelves and locks on the doors; all the doors to be four pannels, except the front deor, which is to have frieze lights; all the doors to have good hinges and latches, the front door to have a good lock, the kitchen and outside cellar doors to have bults. Steps to lead from the ground to under the sill of the front door with door, with a raising on each side; the kitchen door to open on to a platform 20 feet by 13, supported by 12 pieces of timber 6 inches square, set into the ground, on the head of which to be laid 4 by 4 joist, covered with two inch plank, spike down to the top of the plank to be on a level with the under part of the sill of the door; around the platform to be railings, six inches wide, three feet high, except a space of three feet wide, in which to be a gate hang with hinges and a fatch, steps to lead from the gate to the ground, with a railing.

On the centre of the house to be an octagon tower. 13 feet high above the walls of the house, 8 feet diameter; the posts to be 7 inches square, tenoned into the beams of the house, which are to be 8 inches square, well secured with girts and braces; the former to be 4 inches by 6; to be brick pillars under the beams of the lower floor, and joists 4 by 4 framed into the beams of the lower floor to those of the upper, to support the tower; the outside of the tower to be bearded and shingled. Above the roof, round the tower where it connects with the roof of the house, to be well collared with lead; one window in the tower, nine lights 8 by 10. On the top of the tower to be a framed octagon deck, 10 feet diameter, timber 6 by 7 inches square secured to the top of the post by door, with a raising on each side; the kitchen door to open ber 6 by 7 inches square secured to the top of the post by mortice and tenons, the frame of the deck to be covered with two inch plank spiked down, the joints well caulked with oakum, and then covered with white lead; the deck coppered with 22 onnee copper, well nailed down. On one side of the deck to be a scuttle to enter the lantern, as large as the space between the timbers of the deck will admit; scuttled door and rabets to be covered with copper same as the deck. Stairs to lead from the attic story of the house to the entrance of the scuttle; the inside of the tower to be either lathed and plastered, or lined up with boards planed and jointed, plowed

2d. A light house at proper distance in front of the above, to range with the channel, to be 20 feet high, to be built of hard bricks, the form round, foundation to be laid as deep as necessary to make the fabric secure, to be laid in Rosendale cement. The diameter of the base to be 17 feet, and that of the top nine feet. The thickness of the walls at the base to be three feet, to be uniformly graduated to two feet at the top, where an arch is to be turned, on which is to be laid a soap stone deck, eleven feet 6 inches diameter, four inches thick, in which is to be a scuttle door, and rabets to be covered with copper; to be two windows in the tower, 12 lights each, 8 by 10 glass, and a door, six feet by three, made of double inch board, cross nailed, with substantial hinges, latch and lock: the door posts, cap and sill to be of dressed stone, ten inches square; the ground floor paved with brick; circular stairs to lead from the floor to within six feet of the lantern, connected by a centre post; from the top of the stairs to the entrance to the scuttle to be an iron ladder, with steps two inches wide, one half inch thick. On each tower to be an iron lantern of an octagon form,

the height and diameter sufficient to admit six lights 24 by 15 inches in each octagon, a post 15 inches square to pass through the deck 3 feet and bolted on to the post of the tower; rabets of the sashes to be a inch deep, glazed with the best French plate glass, to be fastened to the sash with strong lead pins, except the lower tier, which is to be filled in with eopper; in one of the octagons to be an iron frame door, 4 ft. by 2 covered with copper, to shut tight into rabets with two strong turn buttons—the dome to be formed by 16 iron rafters concentrating into an iron hoop 5 inches wide, ventilator, 15 inches high and 12 inches diameter, on which is to be secured a vane 2 feet long and I foot wide-ventilators and vanes covered with copper-round the lantern to be an iron railing, posts 14 inch square, three railings 2 inch square—the house to have one electrical rod made of copper, 2 inch bolt, to run up one foot above the vane, and two feet down into the grown, secured to the building with copper staples.

All the wood work of the house, including floors, roof and tower, and the iron and copper work of the lanterns, to be painted 3 coats—the lanterns to be fitted up with eight lamps and eight 14 inch reflectors, made in a mould or die, as done by Mr. Winslow Lewis, and by Messrs. Hooper & Co., of Boston, in the same manner, and the reflectors to be of the same form and focus as the United States light houses have been fitted by Winslow Lewis, each reflector to have on it six ounces of silver—each light house to be furnished with two spare lamps, 4 double tin oil conisters to hold 80 gallons each, painted 2 coats-lantern canister and trivet, tin wick box, tin tube box, hand lantern and lamp, oil feeder, torch, at 19 a 20 cents per gallon. Also, 40 bbls. of Sugar, selling 6 wick formers, 2 pair seissors, 2 files, and 1 glazier's dia-

Also, a cistern capable of containing 1,000 gallons of water, and gutters to lead around the awelling, with spouts leading No payment to be made to the contractor until the whole is completed, and the same inspected and approved by the undersigned, or such persons as he may appoint for the pur-pose. The whole to be completed in a workmanlike manner
